

聚焦双边发展——中利国别研究交流会共商合作新路径

Focusing on Bilateral Development: China-Liberia Country Study Exchange Explores New Paths for Cooperation

文/宋佳祎 (By Song Jiayi)

2025年9月21日, 北京引智科技有限公司(以下简称“引智科技”)在北京成功举办以“中国与利比里亚国别研究”为主题的国际交流研讨会。会议邀请多位利比里亚在华留学生参与, 围绕农业、教育、经济、基础设施、投资机遇等领域的潜在合作展开深入讨论, 旨在推动双边务实合作与研究创新。

研讨会聚焦农业现代化、国际贸易、价值增值、科技创新、双边及多边合作、人文交流六大议题。利比里亚留学生结合在华学习经历, 围绕利比里亚国情与发展需求展开研讨。多位与会者指出, 利比里亚在农业资源、矿产资源与青年人力资源方面具备优势, 但在技术研究、基础设施与政策配套方面仍存挑战, 亟需通过实证研究与国际合作, 加快提升制造业能力、促进重点出口产品增值并完善关键基础设施。

On September 21, 2025, Beijing Talent Technology Co., Ltd. successfully organized an international exchange seminar in Beijing under the theme "China-Liberia Country Study." The event brought together several Liberian students studying in China to engage in in-depth discussions on potential cooperation in areas such as agriculture, education, economy, infrastructure, and investment opportunities, with the aim of fostering practical bilateral collaboration and research innovation.

The seminar centered on six key topics: agricultural modernization, international trade, value addition, scientific and technological innovation, bilateral and multilateral cooperation, and people-to-people exchanges. Liberian international students, combining their study experience in China, held key exchanges focusing on Liberia's national conditions and development needs. Many participants highlighted Liberia's potential in agricultural, natural resource reserves, and a youthful population, while also acknowledging persistent challenges in technological research, infrastructure, and policy support framework, as key binding constraints faced by their country. They emphasized the urgent need to enhance manufacturing capacity, value addition to major export, and improve critical infrastructure, by cutting wasteful spending, as well as tackle major challenges through empirical research, and international cooperation with other nations including China.

一位就读于对外经济贸易大学国际贸易专业的利比里亚留学生对开展“国别研究”表示支持。他指出：“这是识别利比里亚经济发展关键制约因素的重要一步。国别研究不仅是一篇论文，更关乎国家真实发展机遇。例如，通过聚焦农业或矿业等领域的价值提升，我们可以创造就业，为经济留存更多价值。这项研究能为投资者指明潜力方向，也为政府提供有效政策

University of International Business and Economics expressed strong support for bilateral exchange research between Liberia and China, terming it a "positive initiative. He stated: "this is a crucial step in identifying the key constraints in Liberia's economic development. This country study is not just an academic exercise—but, it is more about identifying Liberia's real development constraints, and the opportunities that are available for investment. By focusing on value addition in sectors like agriculture or mining, we can create much-needed jobs for our people, and strengthen various elements of our economy. This research can help investors recognize the true potential and provide effective policy guidance for our government."Another

参考。”另一位嘉宾强调实证数据的重要性,认为此类研究应基于详实的一手数据,清晰呈现利比里亚的发展机遇、挑战与路径,从而增强研究结论的可信度与可操作性。

与会嘉宾还围绕扩大非洲青年来华奖学金规模、搭建中非校际合作平台、推进人力资源开发与能力建设等议题展开热烈交流。投资与创业议题同样受到关注,大家分析了利比里亚的投资保障政策、法律框架与商业机会,希望为中国企业提供可行的投资参考。

研讨会尾声,引智科技总经理郑立伟发言表示,公司长期致力于中非人才交流与知识共享,此前已与利比里亚科学院联合发起“国别研究项目——中国与利比里亚合作机会研究”并成功立项,此次研讨会标志着项目从规划阶段正式进入实施阶段。公司计划联合中外高校、企业及政府机构,共同推进中非深度调研与成果共享。与会嘉宾踊跃表达参与意愿,认为这不仅能为祖国发展提供智力支持,也为个人成长与职业发展创造宝贵机会。经初步讨论,会议决定成立跨学科、跨机构联合研究组,开展真实、原创且数据驱动的国别研究,计划在六个月内形成可落地的政策建议与商业报告。

本次研讨会是引智科技在国际产学研合作领域迈出的新一步。未来,引智科技将继续整合资源、汇聚人才,推动更多跨境联合研究,为中国与包括非洲国家在内的“一带一路”合作伙伴深化合作贡献智慧与解决方案。

guest emphasized the importance of empirical data, arguing that such studies should be based on detailed first-hand data and clearly present Liberia's development opportunities, challenges, and paths, so as to enhance the credibility, and findings of the research conclusions.

The participants also engaged in lively discussions on expanding scholarship opportunities for African youth to study in China, building platforms for inter-university cooperation between China and Africa, and promoting human resource development, and capacity building. Investment climate and entrepreneurship were also key topics, with analyses of Liberia's current investment protection policies, legal frameworks, and business opportunities, aiming to provide practical references for Chinese enterprises to invest in Liberia.

In his closing remarks, Liwei Zheng (Fellow of RSA), General Manager of Beijing Talent Technology Co. Ltd., emphasized the company's long-term commitment to promoting talent exchanges and knowledge-sharing between China and Africa. He noted that the "Joint Country-Specific Research Project—Study on Cooperation Opportunities Between China and Liberia," launched earlier with the Liberia Academy of Sciences, has been officially approved. This dialogue marked the official transition from planning to implementation. The company intends to collaborate with domestic and international universities, enterprises, and government agencies to advance in-depth China-Africa research and share outcomes.

Participants showed strong enthusiasm for joining the project, recognizing it as an opportunity to contribute intellectually and support to their home country's development, while gaining valuable experience for personal and professional growth. Following preliminary discussions, it was decided to form an interdisciplinary and cross-institutional joint research team to conduct authentic, original, and data-driven country-specific research, with the goal of delivering actionable policy recommendations and business reports within six months.

This exchange dialogue represents a new step for Beijing Talent Technology Co., Ltd. in the field of international industry-academia-research collaboration. Moving forward, Hi-Tech Talents will continue to integrate resources and gather talents to promote more cross-border joint research, contributing wisdom and solutions to the deepening cooperation between China and its Belt and Road Initiative partners, including African countries.
